

# StandOut Advanced Video Interviewing

## Find the Best Talent in Far Less Time

StandOut® video interviewing uses advanced cognitive computing and AI to bring you the world's fastest and most effective candidate recruitment system. Now you have the tools to identify the traits you're seeking in a candidate before you meet them, allowing you to quickly narrow your search and eliminate hours of interviewing time.

### More Efficient Hiring

See and hear candidates immediately when they apply through StandOut video. Find qualified candidates faster, easier, and earlier in the process. Compare candidate interviews side-by-side. Free up quality time for your top candidates.

### Scalable & User-Friendly

Utilize the latest video technology to scale your recruitment efforts. Post as many positions as you like. Create customized interviews or choose selections from our extensive video library. Collaborate with hiring managers and teams with ease.

### Streamlined Reviewing

Let StandOut's cognitive computing and AI identify your most qualified candidates by automatically evaluating speech patterns, clarity, and word choice. Sort talent by keywords and phrases spoken in video-recorded responses to your questions.
