

Centralize All Course & Event Scheduling. Eliminate the Chaos.

Built for campus teams who juggle it all

25Live® gives scheduling professionals the power to create, plan, and manage complex events and courses, publish to online calendars, perform accounting tasks, run reports, and more. Yet this system also makes simple room searches and requests quick and easy. 25Live integrates seamlessly with the *Schedule25®* Optimizer, LYNX for Banner SIS Interface, *Connect25* Student Engagement, and *X25®* master planning and analytics tool. It's the ultimate efficiency booster for advanced schedulers, functional experts, and novices alike.

25Live • Benefits

Complete Scheduling

25Live makes it easy to quickly search for and request rooms, as well as conduct advanced searches, schedule classrooms and event spaces, reserve resources, and run reports from anywhere with an internet connection. Scheduled events can be automatically published to online calendars and digital displays throughout campus.

Efficient Management

Powerful event management and search capabilities enable users to locate events, manage occurrence data, schedule locations and resources, and much more! With 25Live, planners and coordinators can manage virtually every event detail, from coordinating service providers to providing quotes, contracts, and invoices—all in one system.

SaaS Technology

25Live is provided to your campus via CollegeNET's SaaS systems. We host and continually update the software on our secure servers, which means no installation or maintenance for your IT staff. And users are always assured they're working with the most up-to-date version.
