STANDOUT®

StandOut® Classroom

Engaging All Students in an Enriched
Learning Experience, Wherever They Are

The Only Instruction Platform that Supports ALL Attendance Modes:

- In-person classroom attendance
- Virtual, real-time participation
- Asynchronous viewing and interaction
- Insights and tools for instructors

Builds an Interactive Learning Community

- Real-time lecture transcriptions enable all students to experience the lecture at the same time or asynchronously
- Built-in communication tools include all students in the conversation, during the lecture and asynchronously
- Students and instructors can engage beyond classroom time

Provides a Unique, Enriched Learning Experience

- Interface enables annotation and content interaction directly through the transcript
- AI-generated research tools for independent deeper learning on lecture content
- Archived transcripts support notetaking and thorough review

Supports Responsive Teaching Strategies

- Analyzes students' interaction with lecture transcripts and AI research tools
- Reveals lecture terms/topics warranting further discussion or clarification
- Provides invaluable insight into lecture clarity, pacing, and relevance
- Enables direct communication with individual students or groups

Enables On-time Degree Completion and Retention

- Anywhere, anytime attendance options eliminate absenteeism
- Extends access and flexibility to non-traditional students
- Supports individually paced learning

Integrates with 25Live Scheduling

- You can easily offer any course as a StandOut Classroom option
