

## ApplyWeb Application Processing

The Entire Application Submission Process Online

*ApplyWeb*® is a secure on-demand service hosted by CollegeNET. There's no software for you to install or maintain, and the system is available to applicants and admissions personnel anytime, anywhere.

### ApplyWeb Application Processing Gives You:

- Customized online forms of all kinds – inquiry cards, admissions applications, housing, etc. – exclusively branded to your institution and built to your information-gathering and tracking requirements
- Online admissions application payment services that allow applicants to pay by credit/debit card or e-check, and can include fee waiver options
- Automatic address verification, which immediately checks any U.S. address entered on an application form against official U.S. Postal addresses, and makes any necessary corrections
- Forms processing and robust reporting services that facilitate the admissions review process and streamline admissions workflow
- The ability to download submitted form data in a variety of file formats for upload to other systems, such as your student information system, or export to other applications, such as Excel
- Our exclusive *Triggers*® automated actions and *E-Sponse*® email management, which enable automated targeted email communication with prospects, applicants, and your institution's admissions stakeholders
- Our groundbreaking *HumanForm*® technology, which delivers pertinent, personalized information to applicants via your online application
- A personalized activity page for each applicant where they can return anytime to continue work on their application and check the review status of their submitted application
- Optional Applicant Portals (Checklist and Online Decision), which enable applicants to monitor the status of their application materials and view and respond to your admission decision online via a secure, personalized web portal
