ApplyWeb®
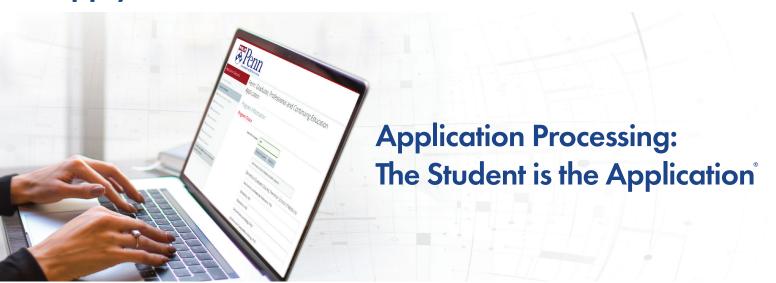

Application Processing: The Student is the Application®

Admission Applications and Forms

Hosted by CollegeNET and powered by our patented *Universal Forms Engine®* (*UFE®*), *ApplyWeb®* is a secure on-demand service that makes admissions applications and forms processing easier and more convenient than ever! There's no software for you to install or maintain, and the integrated admissions system is available to applicants and admissions personnel anytime, anywhere.

Application Processing | Benefits

Your Brand, Your Way

ApplyWeb application forms are custom built to blend seamlessly with your brand and website. Use our self-service features to make quick updates with ease, knowing our team is standing by to help you with the rest. Or try our fully self-service forms, which allow you to create and update your own forms start to finish!

Forms of All Kinds

ApplyWeb provides customized admissions applications and forms for student housing, parking, administrative workflow, general inquiries, and more! Whatever information-gathering and tracking requirements you have, ApplyWeb provides the forms and features to meet your institution's unique needs.

Streamlined Workflow

Our exclusive *Triggers®* automated actions and *E-Sponse®* email management enable automated targeted communication with prospects, applicants, and your institution's admissions stakeholders. Robust reporting services facilitate the admissions review process and streamline admissions workflow.

Find out more!

Security

- ApplyWeb is a SaaS system hosted by CollegeNET on our secure servers
- You maintain full control of your data
- CollegeNET adheres to the strictest security and data protection guidelines of the Payment Card Industry Data Security Standards (PCI-DSS) and is SOC2 compliant

Integration

- Forms processing is fully integrated into the ApplyWeb Admissions System
- Download submitted form data in a variety of file formats for upload to other systems, such as your student information system, or export to other applications, such as Excel

Payment Processing

- Includes online admissions application payment services that allow applicants to pay by credit/debit card or e-check
- Optional logic-driven fee waivers for applicants also included

Address Verification

- Automatic address verification, which immediately checks any U.S. address entered on an application form against official U.S. Postal addresses, and makes any necessary corrections

Self-Service Options

- ApplyWeb self-service features allow you to make quick and easy edits directly to your application
- Fully self-service option allows you to create your own customized forms for any purpose

Communication

- Our exclusive Triggers automated actions and E-Sponse email management, which enable automated targeted communication with prospects, applicants, and your institution's admissions stakeholders
- *HumanForm*® communication technology enables you to deliver relevant, personalized information to applicants as they're completing applications and other forms.

Usability

- Responsive layout automatically adapts to any mobile device, tablet or desktop screen
- A personalized activity page for each applicant, where they can return anytime to continue work on their application or check the status of their submitted application
- Optional Applicant Portals (Checklist and Online Decision), which enable applicants to monitor the status of their application materials and view and respond to your admission decision online via a secure, personalized web portal
