

Series25 Optimized Facilities Scheduling & Resource Management

Fast, Flexible Scheduling – Even in a Pandemic

The *Series25*® comprehensive scheduling system provides full management and modeling of space and resources for academic and event scheduling. Flexible and responsive tools allow you to test and model “what-if” scenarios for social distancing, optimizing room utilization and allocation, and testing alternative schedules to minimize hallway congestion. Quickly synchronize and integrate changes into your SIS through the LYNX SIS interface.

Series25 | Benefits

Speed & Accuracy

Every Series25 tool is designed to streamline workflow, reduce waste, and maximize your school's use of space and resources. Series25 exclusive technology delivers optimized scheduling and super-fast data transfer. Tasks that were once long and cumbersome can now be accomplished in minutes while delivering the most accurate and useful results.

Efficient Management

25Live ensures that every user can easily and efficiently complete scheduling tasks regardless of complexity. Professional event managers can set recurring times, reserve all resources, publish events to e-calendars across campus, run reports and perform accounting tasks, all in one system.

Smart Planning

Schedule25® modeling tools enable you to meet the individual needs of departments and faculty while making the most efficient use of available space. *X25*® master planning and analytics graphing provide the data you need to make informed decisions about construction and disaster recovery plans.

Schedule25*Optimized Classroom Scheduling*

- Cuts course placement time from weeks to minutes
- Yields optimal use of all available space, while meeting individual departments and faculty needs
- Enables you to plan wisely for disaster recovery, remodeling, and effective budgeting

25Live Scheduling*Simple Scheduling*

- Easy-to-use, convenient scheduling tool for first-time or occasional users
- Intuitive interface and responsive design for any supported desktop browser and mobile device
- Request rooms, schedule a single event, and view information about organizations and contacts

25Live Pro*Advanced Scheduling*

- Allows scheduling professionals to create, plan and manage complex events and courses
- Automatically publishes events to online calendars and electronic displays across campus
- Provides direct, integrated management of accounting tasks and generation of institution-wide reports
- Integrates seamlessly with the other Series25 scheduling and master planning tools
- Adapts to any mobile or desktop screen, for immediate changes on the fly

X25*Campus Master Planning and Analytics*

- Web-based analytic tool provides the data in clear, colorful graphical reports
- Identifies inefficiencies in space and equipment allocation; justifies construction or closure
- Allows you to drill down to explore and reveal space relationships on campus
- Specify and generate reports to support your master planning and campus vision

LYNX*SIS Interface*

- Bi-directional interface that syncs all your courses to the Series25 scheduling system
- Uploads an entire term of classes in minutes
- Easily add make-up dates to class meeting times
- Automatically send room assignments back to the SIS; assign resources directly to courses
- Connect multiple SIS's to one 25Live instance, or one SIS to multiple 25Live instances

Reliable SaaS Technology

- Series25 all-SaaS software is hosted on CollegeNET's secure servers and continually updated
- No installation or maintenance for your IT staff.
